# AFTER THE SITE-VISIT

Upon receiving the final report, the program should study it looking for the following:

- Strengths
- Suggestions
- Concerns (Action Item)
- Recommendations (Action Item)

# POST-RESPONSE TEMPLATE

## UnMet – Standards from the Visit

Items that were a concern

## Recommendations

Nonprescriptive language to correct the concern

## Plan of Action

Process to correct the concern

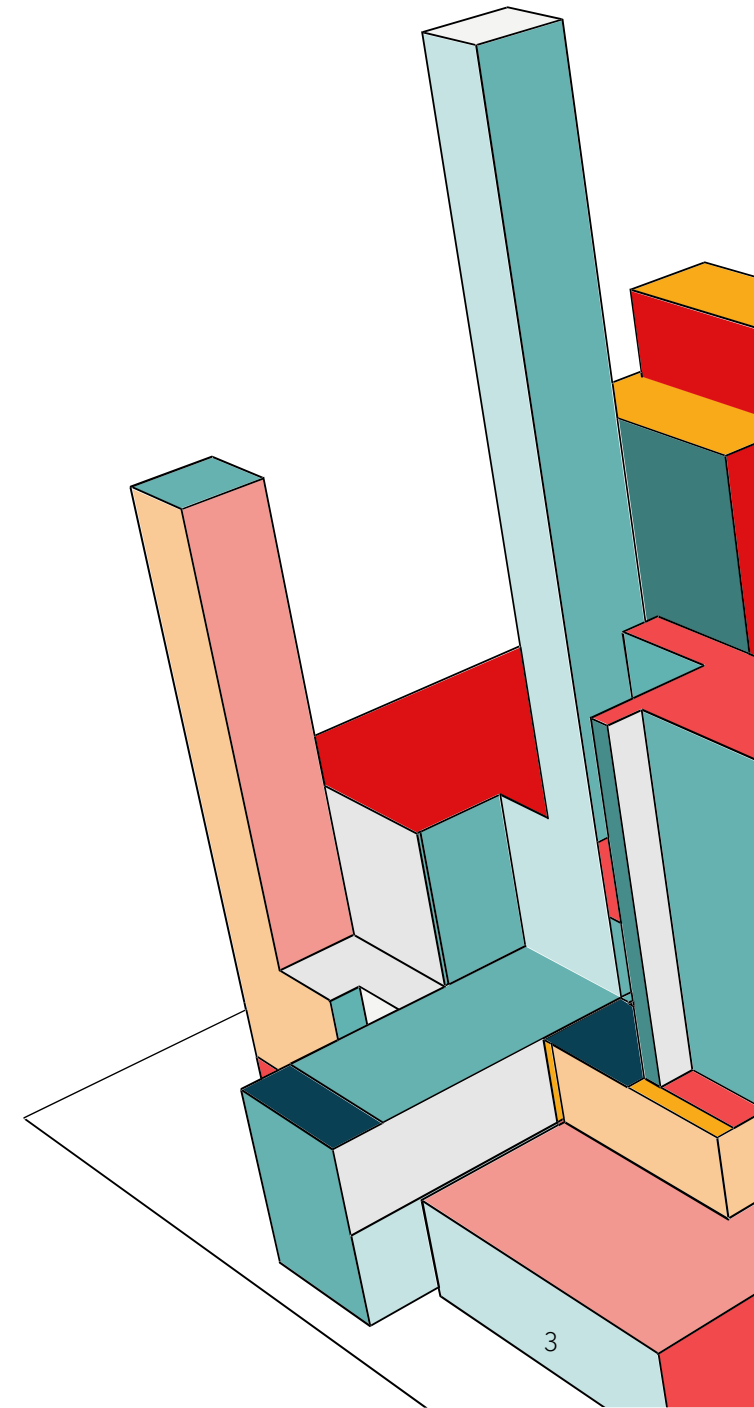

## Implementation

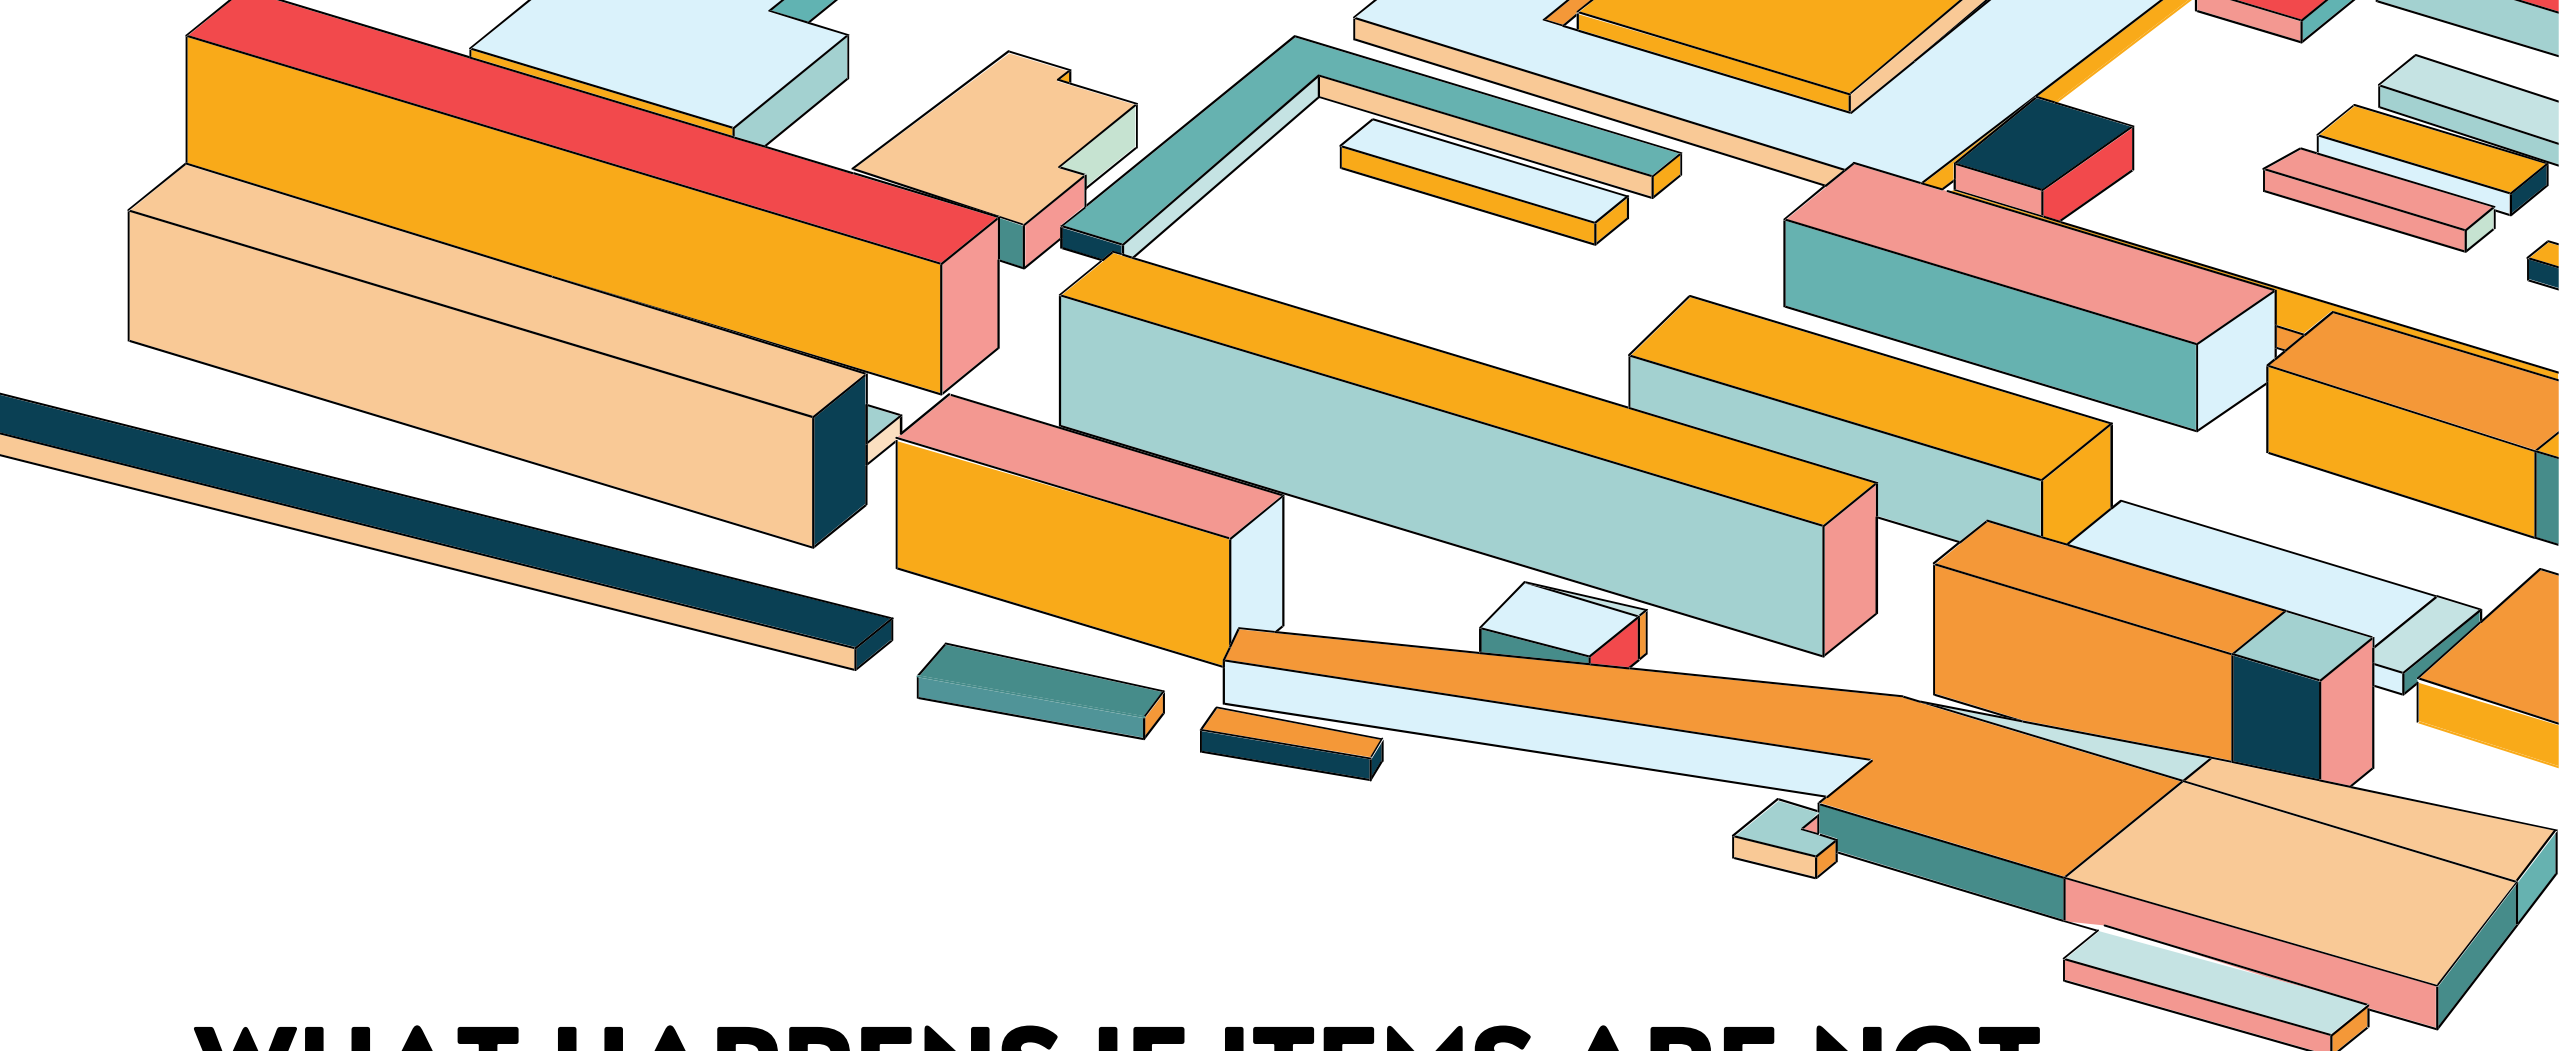

Action taken and Time-line

## Evidence

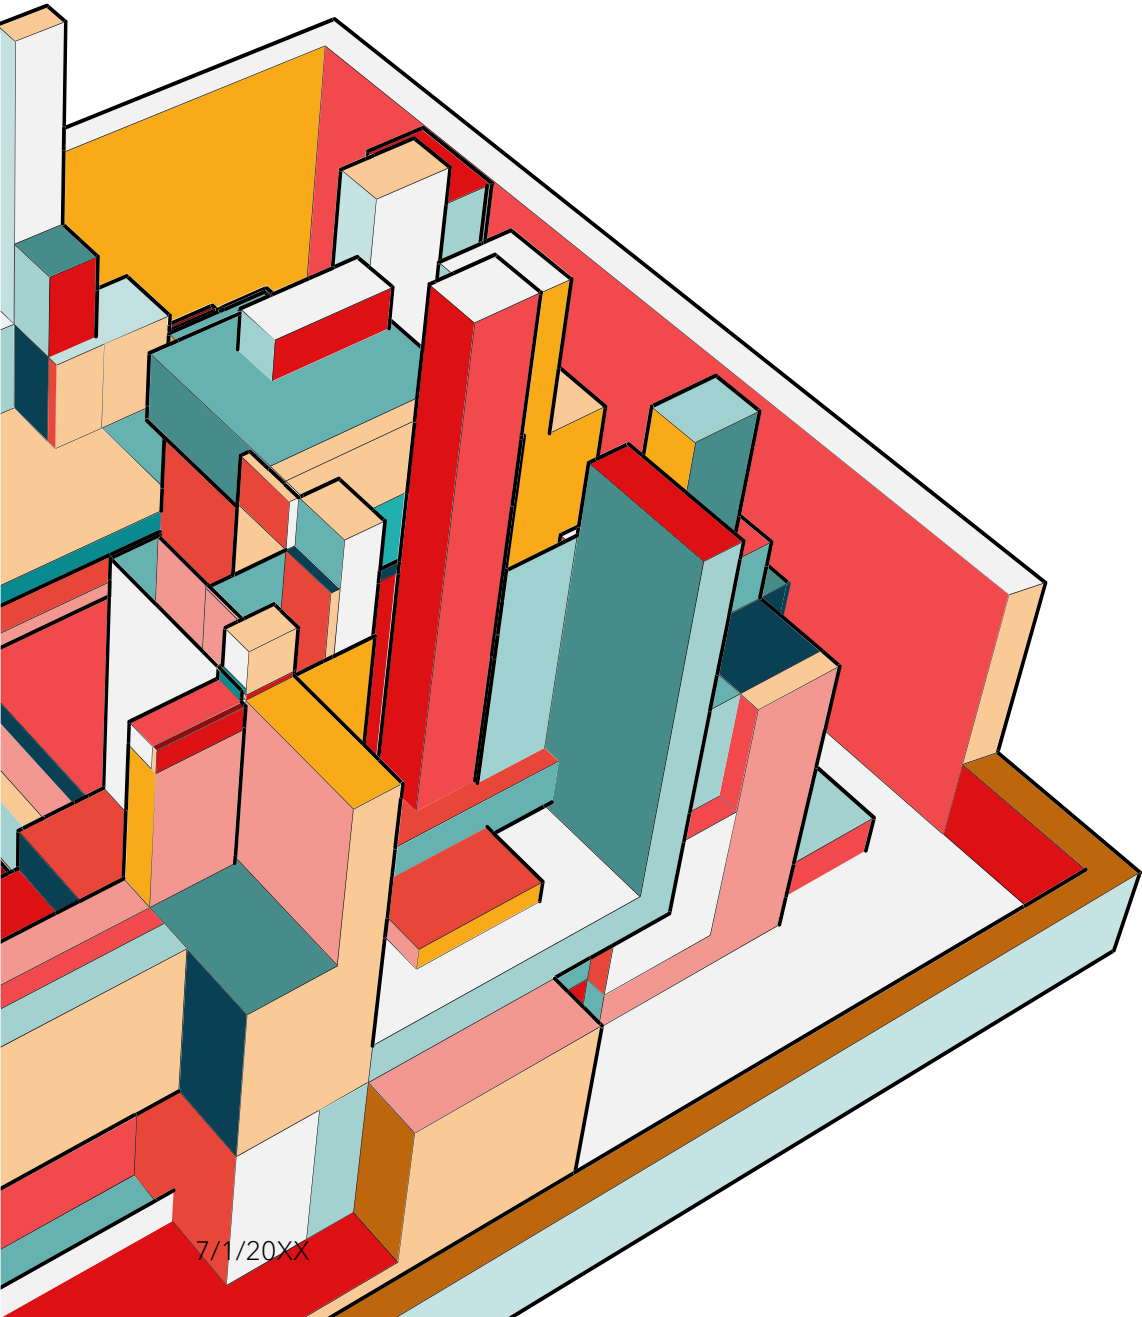

Results of the implemented action item(s)

## Resources Required

**WHAT HAPPENS IF ITEMS ARE NOT COMPLETE?**

# SUMMARY

These trainings have been designed to hopefully decrease the number of concerns and increase the number of strengths during a site visit and within the self-study
